

## RUBBER CRUSHER PLANT P-NTCC 500-B

This equipment is consisting of

- 01 pce CRUSHER NTCC500-B
- 01 pce VENTILATOR 3,0kw
- 01 pce CYCLONE COLLECTOR 180ltr. with rotary valve
- 01 pce CONTROL PANEL

This CRUSHER is suitable to cut scrap of RUBBER in small parts. Under normal temperature the CRUSHER NTCC 500 is precutting the rubber parts from 200mm down to 5mm and less.

Model	P-NTCC 500-B
Capacity	100 – 180 kg/h
Main shaft speed	600 RPM
Feeding size	0-200 mm
Output size	0 - 5 mm
Crushing Moteo	22 kW
Collector Motor	3 Kw
Connected load	26 kW – 380V – 50Hz
Weight	1300 Kg
Dimension	2600x1800x2800 mm (LxWxH)
Installation area	3000x2000x3000 mm (LxWxH)
Other	NO water for cooling required NO compressed air required
